DD/A REGISTRY

FILE: 45-16

MEMORANDUM FOR: Deputy Director, Intelligence Community Staff

FROM: Harry E. Fitzwater  
Deputy Director for Administration

SUBJECT: Move of ICS Components from the CIA Headquarters Building

REFERENCE: Memorandum to DDA from DD/ICS, dated 12 April 1983

1. I have received your request to relocate Intelligence Community Staff (ICS) components to the Tysons area and appreciate your concerns about locating them in the Rosslyn area. We have reviewed the options open to us, however, and have concluded that the only space available to satisfy all of your space requirements is at the Ames Building. As you may know, the master plan for the  Building backfill has been approved for some time and we are now well into the detailed work necessary to accomplish the moves. With some difficulty, we revised the Headquarters plan to provide 1,350 square feet of ground floor space for the CAMS Operation Branch. To further revise these plans now would cause a major setback to the schedule delaying the move of SOVA back to Headquarters Building. Therefore, we must proceed as planned.

STAT

2. You may be sure that we will make every effort to accommodate your needs in the Ames Building within the limits our budget and space constraints will allow. I will have a representative of the Logistics Services Division's Architectural Design Staff contact your Administrative Staff within a few weeks to begin the planning for the moves.

Harry E. Fitzwater
